## PROFILE

---

A final year Computer Science student studying at Tshwane University of Technology. An ICT academic mentor who is very passionate with helping others become the best versions of themselves, assisting my peer students and those who came after me with their studies and guiding them on how to tackle their studies along with their university life. Learning more about Java, CSS, HTML, JavaScript, Kotlin ,MySQL and PL/SQL. My goal is to become one of the best female software developers or data scientists in the world.
